Map coverage: only reviewed physical links with valid location coordinates receive pins. A reviewed link alone does not confirm valid coordinates. Unmatched source areas remain in evidence totals; this briefing does not assert a mapped-record count.

Interpretation and limitations

Payment activity is not occupancy. These records do not establish stay length, turnover, occupied spaces, or capacity utilization. First and last months may be partial; missing months are unavailable, not zero. No annualized estimate or forecast is presented.

Zero-dollar records remain in counts and contribute zero to monetary totals. Rates, exemptions, payment-system settings, occupancy surveys, accessibility, costs and asset condition require separate evidence before policy conclusions.
